What makes me different?

Senior UX Designer & Researcher with 9+ years of experience uncovering user needs, validating product decisions, and driving user-centered outcomes. Having worked closely with developers and contributed to product development, I bring a strong understanding of technical feasibility and cross-functional collaboration. My **research-led approach** helps align stakeholders, reduce ambiguity, and guide product strategy. I have contributed to 25+ products across mobile and web platforms, helping teams deliver experiences that are both valuable to users and practical to implement.

My Strengths

- Problem Hunter & Solver
- Envisioning Future
- Lateral Thinker
- Dependable
- Inclusive Thinker
- Benevolent
- Effective Communicator
- Passionate Mentor
